

## BridgeMont Heavy-Duty Steel Deck Truck Scale

*Technical Specification*

### General

- The BridgeMont Heavy Duty Steel Deck Truck Scale is an outstanding design that incorporates the most advanced engineering and production technology. It is a scale for the majority of users, the people who require a scale they can depend on, day in and day out.

### Features & Benefits

FEATURE	BENEFITS
Gross Capacity	With a capacity of 40 to 100 tons this scale can handle a wide range of trucks and configurations.
Platform Lengths	Platform lengths from 10' to 150'; assuring each customer the right size for the application.
Platform Widths	Standard widths of 10', 11', 12' and all the way up to 15' to fit a range of applications and existing foundations.
Concentrated Load Capacity (CLC)	At 45 tons, the BridgeMont Heavy Duty Steel Deck Truck Scale is comparable to other product costing thousands more.
Dual Tandem Axle Rating (DTA)	At 90,000 lb, the BridgeMont Heavy Duty Steel Deck Truck Scale provides the highest Dual Tandem Axle Rating in its class.
"r" Factor	With an "r" Factor of 2.65, the BridgeMont is twice the legal highway load limit of 34,000 lb.
Module Size	At 10', 12', 20', 23.5', and up to 150'; the BridgeMont uses fewer load sensors, only 8 on a typical 70' scale, compared to 10 or more on competitive models.
Weighbridge Thickness	At only 10.125" thick, the BridgeMont Heavy Duty Steel Deck Truck Scale provides a lower profile, compact, and structurally superior design.
Profile	At 14", the compact, efficient design of the BridgeMont, minimizes approach and exit requirements, and yet provides the user total confidence in integrity of the weigh bridge.
Full Electronic Design	Avery Weigh-Tronix has been an unsurpassed leader in utilizing state of the art technology, in virtually every aspect of the truck scales.
Factory Assembled	Minimizes installation time and costs. Insures consistent product quality.
Weighbridge Design	An outstanding weighbridge design, that includes a sandwich steel deck design that reduces the weight of the deck yet increases the strength of the scale. The second benefit of the sandwich design is it seals the deck structure from the elements which can reduce the life of the scale. The sandwich steel deck design of the BridgeMont Steel Deck Truck Scale increases the life and strength of the scale which comparable truck scales cannot compete with.
Corrosion Protection	All steel surfaces are sandblasted to SSPC-6 industry standards. A high quality industrial grade urethane primer is applied, followed by a final coat of an acrylic polyurethane. Galvanizing is available.
Module Installation	The absence of grout plates and the drilled in place anchor bolts mean simple, low cost installation.
Weigh Bars®	Capacity of 60,000 lb for each sensor, with 200% overload safety factor.
Weigh Bar Performance	Impervious to end, side, and torque loading conditions, that can destroy conventional load cells.
Weigh Bar Design	Produced from high quality aircraft alloy steel bar stock, that has been heat treated, quenched, and tempered, to resist corrosion. Better repeatability and less hysteresis than stainless steel.
Weigh Bar Reliability	Failure rate of only 0.31% compared with a national average of 3 to 5% on conventional load cells.
Weigh Bar Protection	Extremely resistant to surge voltage or lightning related problems. Strain gauges are scientifically sealed against moisture or corrosive elements.
Weigh Bar Cabling	Stainless Steel jacketed cables in factory installed conduit runs.
Weigh Bar Self-Checking	Rugged Pin & Link™ or Easi-Post™ suspension, and self-checking design, absorbs shocks, and sudden stopping and starting of vehicles on scale. No check rods or bumper plates required.
NEMA 4 Stainless Steel Junction Box	Compact, all stainless steel junction and summation boxes, with connector-less cables for elimination of moisture or condensation related problems.

# BridgeMont – Heavy-Duty Steel Deck Truck Scale

## E1310 Indicator

The E1310 Indicator with truck scale In/Out software application simplifies vehicle weighing. Track up to 250 different open transactions and store up to 1,000 completed transactions. You can also store up to 500 tare weights.

### Approvals –

NTEP, Cert. Of Conf. #97-074  
 Approved up to 14' width  
 Approved for livestock weighing

### Warranty –

5 years - Weigh Bars  
 10 years - Weighbridge

## OPTIONS & ACCESSORIES

- Remote Displays
- Grain Dump Modules
- Guide Rails
- Printers
- Galvanized Finish
- Guard Posts
- Pre-Fab Foundations
- MI-Payload, Measurement Intelligence Software
- Manhole Rings and Covers
- Hazardous Area Systems
- Traxle™ - Total Truck Weight and Axle Weights
- Indicators
- Multi-Platform Systems for Axle Weighing

MODEL NUMBER	SIZE	MODULES	WEIGH BARS	GROSS CAPACITY (tons)
BMS 1010	10' x 10'	1	4	40
BMS 1210	12' x 10'	1	4	40
BMS 2010	20' 8" x 10'	1	4	40
BMS 2410	24' x 10'	1	4	40
BMS 3010	29' 7" x 10'	2	6	80
BMS 3510	34' 11" x 10'	2	6	80
BMS 4010	40' 3" x 10'	2	6	80
BMS 4710	46' 11" x 10'	2	6	80
BMS 6010	59' 11" x 10'	3	8	100
BMS 7010	69' 11" x 10'	3	8	100
BMS 8010	79' 6" x 10'	4	10	100
BMS 9310	92' 10" x 10'	4	10	100
BMS 10010	99' 1" x 10'	5	12	100
BMS 11610	115' 9" x 10'	5	12	100
BMS 1011	10' x 11'	1	4	40
BMS 1211	12' x 11'	1	4	40
BMS 2011	20' 8" x 11'	1	4	40
BMS 2411	24' x 11'	1	4	40
BMS 3011	29' 7" x 11'	2	6	80
BMS 3511	34' 11" x 11'	2	6	80
BMS 4011	40' 3" x 11'	2	6	80
BMS 4711	46' 11" x 11'	2	6	80
BMS 6011	59' 11" x 11'	3	8	100
BMS 7011	69' 11" x 11'	3	8	100
BMS 8011	79' 6" x 11'	4	10	100
BMS 9311	92' 10" x 11'	4	10	100
BMS 10011	99' 1" x 11'	5	12	100
BMS 11611	115' 9" x 11'	5	12	100
